

HARDIK SATI

+91-9810599303 | Hardiksati1999@gmail.com | github.com/hardiks010 | linkedin.com/in/hardik-sati

CORE COMPETENCIES & TECHNICAL FOUNDATION

Languages: JavaScript (ES6+), Java, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, GSAP

Backend: Node.js, Express.js, REST APIs

Cloud & Integration: SAP CPI, iFlow Design, HTTP/ODATA, Message Mapping, XSLT, MPL Logs, SAP Monitoring

Product & Strategy: Problem Framing, User Behavior Analysis, First-Principles Product Thinking, Systems Thinking

PROFESSIONAL EXPERIENCE

Ernst & Young GDS - SAP CPI Cloud Integration Intern

Jan 2026 - April 2026 | Gurugram, India

- Designed SAP CPI iFlows using HTTP/SOAP adapters, routing, content modifiers, and enterprise integration patterns.
- Implemented XSLT transformations, payload mapping, and secure service-key configurations for enterprise data exchange.
- Monitored runtime pipelines using SAP CPI Monitoring and MPL logs, diagnosing failures and improving processing reliability.

PROJECT EXPERIENCE

CiviQ - Reimagining Civic Issue Reporting

Product Lead & Full-Stack Contributor | Mar 2026

Hackathon Winner - 1st Place out of 200+ Teams

- Identified core problem:** civic reporting fails due to behavioural barriers (friction + no feedback), not missing technology, framed problem from first principles
- Made deliberate product decisions: **WhatsApp-native intake (no app dependency)**, **swipe-based validation** (eliminate duplicates), **delivery-style tracking** (build trust through visibility), each choice solved a specific user behaviour gap
- Built and shipped a full product in 48 hours; learned rapid iteration under constraints is the truest test of PM thinking

Kizuna : FanBase Reaction Platform

Full Stack Developer & Product Strategist | Jan 2025 – Mar 2025

Hackathon Finalist - Top 3 of 120+ Teams

- Led the **UI/UX design** and frontend development of a **Next.js** platform, building onboarding, content discovery, **matching**, and **real-time chat experiences** from wireframes to test-ready interfaces.
- Integrated **Socket.io**, **Supabase**, and **REST APIs** to enable **real-time user matching**, low-latency messaging, authentication, and **personalized user experiences**.
- Designed web-first user flows and interaction patterns that **reduced onboarding friction** and streamlined the journey from content discovery to live conversations.

EDUCATION

B.Tech - CSE, Specialization in Full Stack Development

The NorthCap University (NCU), Gurugram, Haryana

Expected Graduation: 2026 , **CGPA : 8.35**

ADDITIONAL INFORMATION

- Certifications:** Joy of Computing with Python (IIT Ropar), Cloud Computing (IIT Kharagpur)
- Awards/Activities:**
 - 1st Place, CodeSphere Hackathon 2026 : Top 1 of 200+ Teams**
 - Hackathon Finalist, Project Fiesta 2025: Top 3 of 120+ teams**
